

RAILWAY CLEANUP BUCKET

Dymax Railway Cleanup Buckets offer railyards, load transfer and terminal port facilities the ability to cleanup spilled materials left over from hopper cars. With integrated rear rail wheels these slot buckets clean up coal, coal dust, aggregates, sand, gypsum, snow and other spilled materials. Available to fit front wheel loaders or swing loaders. Adjustable shims provide operators with the ability to set the depth in the slot over the railhead.

Dymax Railway Cleanup Buckets feature pockets and integrated rail wheels and shim adjustable wear pads. Contact DymaxRail for custom solutions to fit your application requirements.

CLEANUP THE RAILS FAST.

RAILWAY CLEANUP SLOT BUCKETS FOR WHEEL LOADERS
