

BOX WAGON TRACK CART

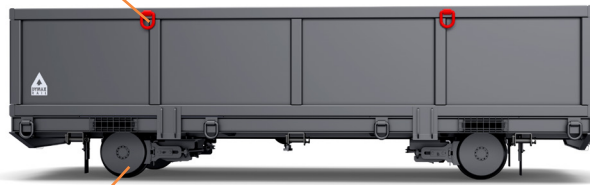

Lift Rings

Easily lift to and from the tracks using cranes or excavators.

Optional fork pockets available upon request.

High Tensile Strength Two-Bin Box

Built using T1 side walls and AR400 floor plating for long lasting durability.

HD DymaxRail Axles and Wheels

Optional:

- Track gauge
- Insulated railgear

Towbar & Hitch

Standard towbar (4ft) with welded pin type hitch.

Optional:

- Custom tow bar length
- Rockinger or HD Pintle Hitches

Solar Powered Lighting Systems

- Automatic red & white directional lights and LED spot lamps included.

BOX WAGON TRACK CART

HAUL SCRAP, BALLAST AND OTHER MATERIALS

The Box Wagon Track Cart is a durable highly versatile solution for hauling critical railway materials such as tie plates, spikes and ballast. Designed with two bins and heavy duty construction, this cart ensures efficient and reliable transport for a variety of rail-based projects.

Key Features and Benefits:

- **Heavy-Duty Design:** High strength twin rectangular beam frame construction. Wagon floor and sides constructed with high tensile strength steels, including AR400 wear plate used on all floors.
- **Directional lighting systems:** Self contained and requires no plugs for operation. Simply flip on the switches and go to work. Includes red and white directional lights and LED spot lamp on both ends.
- **Brake Systems:** Equipped with air, hydraulic and manual park brakes.
- **Box Capacity:** 2 bin design available in 10 or 13 yard capacity, depending on cart size.
- **Special Track Gauges:** Available for all track gauges.
