

Tie Down Locations

Secure loads

Park Brake Wheel

Turn to set

Rubber Skirting

Shields wheels and bearings

Forklift Tine Pockets

Lift and carry. Easily stack multiple carts in storage.

INDUSTRIAL BLAST BOOTH RAIL CART

HEAVY-DUTY PERFORMANCE FOR DEMANDING ENVIRONMENTS

Designed for industrial applications, our Blast Booth Rail Cart is built to withstand the harsh conditions of shot blasting and sandblasting environments. Engineered for superior durability, this cart is ideal for transporting heavy loads through enclosed abrasive processes while protecting critical components from wear and contamination.

Key Features and Benefits:

- **High Strength Frame & Deck:** Heavy duty deck construction and steel framing for long lasting durability.
- **Park Brake:** Integrated manual park brake with cobra type pad.
- **Rubber Protective Skirting:** Protects components from abrasive materials and enhances durability during blasting processes.
- **Tie-Down Locations:** Secure points for safely anchoring loads during transport, preventing unwanted movement.
- **Forklift Pockets:** Integrated forklift pockets for easy handling and repositioning within facilities.
- **Options:** V-clearing blade, load capacities and other custom solutions, engineered to order.

Group No	Model	Weight (lbs)
8249D1	DX-RC-INDT-6x6P-DMX-15TC	2,390
8248D1	DX-RC-INDT-6x12P-DMX-15TC	3,910
STANDARD FEATURES: • Standard gauge: 56.50 inches / 1435mm • Height off rail: 24 inches • 1/4" steel deck plate • 15 ton capacity
