

High Strength Beam

Steel Deck Plate

Welded Eye for clevis connection

DymaxRail Wheels

Low profile design featuring sealed bearings for long lasting durability

## TRACK DOLLY CART

### VERSATILE AND DURABLE MATERIAL TRANSPORT SOLUTION

The Track Dolly Cart is a robust and efficient platform designed for railway construction and maintenance projects. Engineered to handle demanding environments, this cart is ideal for transporting materials, tools and supplies across rail tracks with ease. Whether you're working on bridge construction, track repairs or infrastructure upgrades, the Track Dolly Cart provides a dependable solution to streamline operations.

#### Key Features and Benefits:

- **Heavy-Duty Design:** Built to endure tough conditions while ensuring smooth operation on rail tracks.  
**Flexible Application:** Can be used to transport beams, track components, switch and crossing components when two carts are used in tandem.
- **Brakes:** Available with manual park brake or optional air brake solution.
- **Tie-Down Locations:** Secure points for safely anchoring loads during transport, preventing unwanted movement.
- **Special Track Gauges:** Available for narrow gauge and broad gauge applications, including extra-wide gauge for specialized industries.
