

EXCAVATOR TRANSFER SHUTTLE

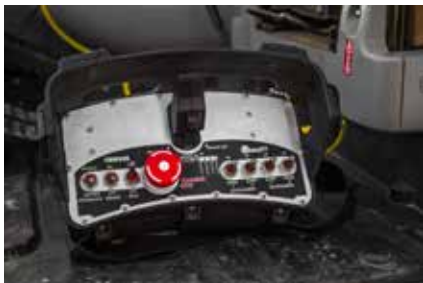

EXCAVATOR TRANSFER SHUTTLE

Move large excavators to remote worksites with the DymaxRail **Excavator Transfer Shuttle**. It's powered by an engine cart and remote control system, without any machine modifications. Excavators can crawl off the track and get to work quickly.

KEY FEATURES & BENEFITS:

- **Standalone Transport Solution:** The shuttle is operated through a remote control and compact hydraulic power unit. No machine modifications.
- **Hydraulic Drive System:** Smooth, controlled movement along railway tracks.
- **Integrated Stabilizers:** Safe and stable transport.
