RAIL RIDER SYSTEMS

RIDE THE RAILS

WITHOUT MACHINE COMPROMISE

HI-RAIL ATTACHMENTS FOR EXCAVATOR & BACKHOES

WHY WE MADE IT

In 2011, we built the first attachment-based hi-rail system for backhoe loaders, without permanently modifying the machine.

The industry said it couldn't be done with excavators. The X1 proved otherwise.

Now the X2 takes it further: patent-pending wedge-locking adapters, modular architecture, and a simpler, cleaner install for 6T through 36T track excavators.

Because contractors don't need more dedicated machines sitting in the yard.

They need faster access.

Better mobility.

And a smarter way to get work done in remote rail environments.

From bridge work and tie jobs to vegetation management, switch maintenance, and emergency access, DymaxRail solutions are built to solve the everyday challenges faced by maintenance of way crews.

WHO WE ARE

FIVE GENERATIONS OF BALDERSON ENGINEERING

The Balderson family has been building attachment solutions for five generations. From Balderson Inc. to Dymax and now DymaxRail, the focus has always been the same — build durable, job-matched equipment that helps customers work safer, faster, and smarter.

Building better solutions is in our DNA.

WHEEL EXCAVATORS

Available in Base and Premium packages for stability and performance.

RAIL RIDER X2 - TRACK EXCAVATOR

Patent-Pending Rail Rider X2 — True hydrostatic drive hi-rail attachment. Install it in your shop. Get on rail in days.

BACKHOE LOADERS

LoPro, Standard Guide, and Stabilizer-Mounted Railgear Systems keep machines non-modified for road and rail use.

RAIL RIDER *BL*

BACKHOE LOADER HI-RAIL ATTACHMENTS

RAIL RIDER STANDARD

GET YOUR BACKHOE ON THE RAILS FAST!

RAIL RIDER LOPRO

STANDARD

SINCE 2011. THE ORIGINAL RIDER.

LOPRO

NO WELD DESIGN. FAST INSTALL.

STABILIZER MOUNTED

AVAILABLE FOR CAT 420, 430, AND JOHN DEERE 710P

The Dymax Rail Rider lineup gives contractors, railroads, and transit operators a smarter way to get machines on rail without the complexity of dedicated conversions. From the proven G-BL backhoe guide systems to the permanently-mounted S-BL stabilizer series and the low-profile Lo-Pro configurations, Rail Rider solutions are engineered to improve mobility, simplify installation, and maximize machine versatility in demanding railway environments. Built for real-world maintenance-of-way work, these systems help crews move from road to rail quickly while preserving machine flexibility and reducing unnecessary downtime.
