

Integrated rail wheels

OVERVIEW

KEEP YOUR RAIL YARDS CLEAR AND YOUR OPERATIONS MOVING

Dymax Railway Cleanup Buckets are designed for fast, effective removal of spilled materials around rail lines. Whether it's coal dust, aggregate, sand, gypsum, or snow—these buckets are built to handle it.

WHY USE THIS BUCKET?

Our buckets are engineered to perform in the toughest environments. Backed by decades of experience in rail and material handling solutions, Dymax Cleanup Buckets help keep your track areas safe, clean, and operational.

Fits: Wheel Loader, Swing Loader or Backhoe Loader
Hookup: Fits popular quick coupler systems or can be made to pin direct.

APPLICATIONS

- Mining Operations
- Quarry Railheads & Loadout Points
- Port and Terminal Cleanup
- Railcar Unloading Zones
- Intermodal Facilities

KEY BENEFITS

- **Integrated rail wheels** - Roll directly on the track for easier operation and guide
- **Adjustable rail pads** - Shim adjustable wear pads let you fine tune the bucket height to glide over the railhead.
- **Built for loaders** - Compatible with front end loaders and swing loaders
- **Dual purpose design** - Scoop and stockpile materials in one operation
- **Built Tough** - Designed for harsh environments like terminals, mines and quarries.
